This foundational work informs all subsequent decisions.

Stage 2: Concept Development

Next, the director crafts the overall concept or vision. This might involve:

- Deciding on the visual style (realistic, abstract, minimalist)
- Choosing a tone (comedic, tragic, surreal)
- Determining staging and spatial arrangements
- Establishing mood and atmosphere

This step sets the artistic framework for the production.

Stage 3: Casting and Rehearsals

Casting is a critical phase where the director selects actors who best embody the characters. During rehearsals:

- The director works with actors to develop characters
- Blocks scenes to determine movement and positioning
- Fine-tunes performances, emphasizing emotional truth
- Addresses technical aspects like timing and pacing

Rehearsals are iterative, requiring patience and adaptability.

Stage 4: Technical Integration

Once performances are solidified, the director collaborates with designers:

- Set and costume designers shape the visual environment
- Lighting and sound designers enhance mood and focus
